

OLIVE TREE CONGREGATION SOUND TEAM

How, then, can they call on the one they have not believed in? And how can they believe in the one of whom they have not heard? And how can they hear without someone preaching to them? (Romans 10:14)

Unless you speak intelligible words with your tongue, how will anyone know what you are saying? (1 Cor. 14:9)

PURPOSE:

The OTC Sound Team exists to enhance worship through music and to enable people to hear the preaching and teaching of God's word.

FUNCTIONS:

SOUND SYSTEM:

1. Set up the sound system about 1½ hours before each service. Adjust volume of house speakers and monitors to ensure a pleasing balance among worship team members throughout the sanctuary.
2. Set up and test the preacher's wireless microphone system.
3. Take down the sound system after the service or Shabbat School.

RECORDING MINISTRY:

1. Record the sermon onto a master CD.
2. Duplicate CD's for anyone wanting to listen again or give to a friend. Provide a CD to the Website Ministry to make the sermons available on the internet.
3. Label and archive the master CD.
